

New York City Council Districts and Asian Communities (2018)

Introduction

As our City Council starts this new term with 11 new members and 40 returning members, the Asian American Federation has compiled data from the 2015 American Community Survey (ACS) on the Asian populations for each of the City Council Districts.¹ We will highlight the growth in each district's Asian population and highlight the Asian languages most commonly spoken in each district.

Overall Asian Population

The Asian population continues to be the fastest growing major race and ethnic group in New York City. According to the most recent Census Bureau population estimates, the Asian population in New York City reached 1.23 million in 2015, accounting for nearly 15 percent of the city's population.

The Asian population continues to spread out across the city. Out of the 51 Council Districts, Asian New Yorkers represent 10 percent or more of the population in 26 Council Districts.

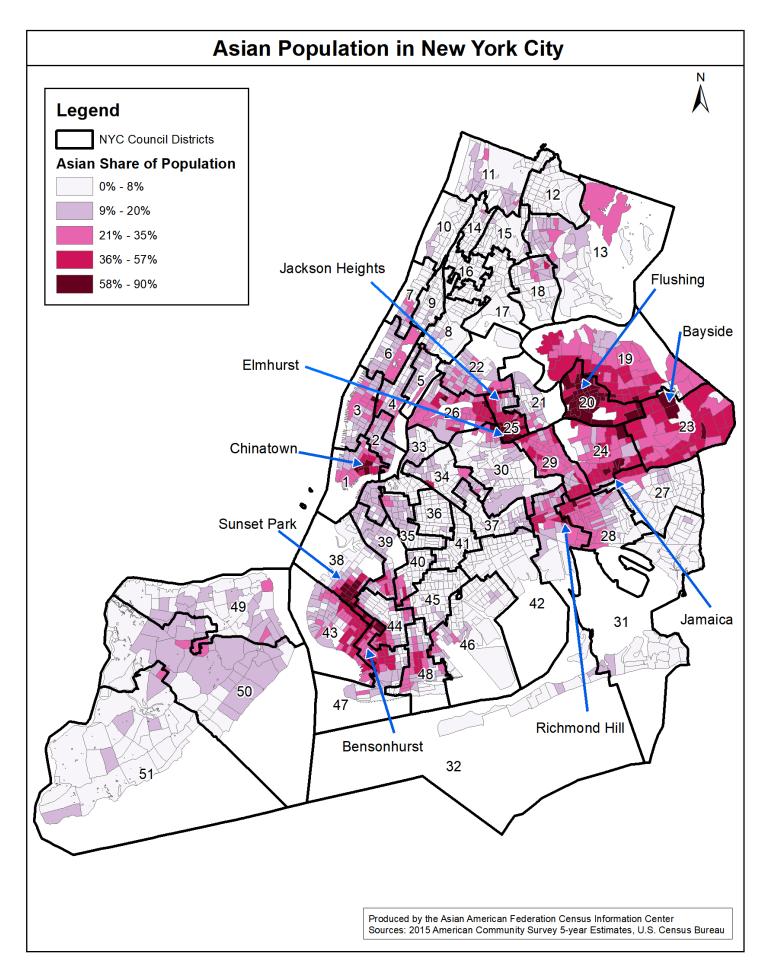

Table 1 summarizes the Asian population data by City Council Districts from the 2015 ACS, with seven Council Districts having more than 50,000 Asian residents. Council District 20, centered in Flushing, remains the district with the largest Asian population, followed by District 23 in Northeast Queens around Oakland Gardens; District 1 in Lower Manhattan (including Chinatown); District 25, which includes Jackson Heights, Queens; District38 encompassing Sunset Park, Brooklyn; andDistrict 24, which include parts of Jamaica, Queens.

Almost three in four Asian New Yorkers are immigrants. Overall, 26 percent of all immigrants citywide are Asians. Council District 20 has the highest percent of Asian immigrants among all immigrant populations, accounting for 79 percent of all immigrants in the district. District 1 has the second largest Asian immigrant population, with 66 percent of all immigrants, followed by District 23 at 60 percent; District 19 at 54 percent; District 38 at 51 percent; and District 43 at 48 percent.

As Asian immigrants and their families become more established, they have become a growing part of the potential voter base, comprising 11 percent of the total voting-age citizen population in New York City. Asians represent 10 percent or more of voting-age citizens in 21 out of 51 districts.

Asian voting-age citizens comprise 20 percent or more of the overall voting-age citizen population in the following districts: Council District 20, the only district where Asians are the majority (55 percent) of the total voting-age citizen population; District 25, accounting for 35 percent, followed by District 23 at 34 percent; District 1 at 29 percent; District 24 at 27 percent; District 29 and District 19 each at 24 percent; District 43 and 38 each at 23 percent; and District 26 at 22 percent.

¹The data source for this briefing paper is the 2015 American Community Survey (ACS) 5-year Estimates.

Highlights for Asian Groups

The overall Asian population numbers disguise the diversity and disparate residential patterns that underlie the Asian community. **Table 2** presents the Asian ethnic group population for each City Council District. This section highlights which City Council Districts have the most population for each of the larger Asian groups.

Bangladeshis are the fifth largest Asian group, with almost 62,000 city residents. Three Council Districts with the largest Bangladeshi populations are District 24 in Queens, with over 10,000 people, followed closely by Districts 25 and 26, with over 6,000 each. Outside of Queens, District 18 in the Bronx and District 39 in Brooklyn have large populations of Bangladeshis. Fourteen Council Districts have more than 1,000 Bangladeshi residents.

Chinese remain the largest Asian group in the city, making up about 46 percent of all Asians.² District 20 in Flushing, District 1 in Lower Manhattan, District 38 encompassing Sunset Park, and District 43 around Bensonhurst each have more than 40,000 Chinese residents. Chinese New Yorkers are increasingly dispersed across the city, with at least 1,000 residing in 43 Council Districts.

Filipinos are the fourth largest Asian group in the city. District 25 in Queens has the largest Filipino population, followed by Districts 26, 24, and 23. At least 1,000 Filipinos reside in 28 of the City Council Districts.

Indians, the second largest Asian group, are found in large numbers in almost all the districts. At least 1,000 Indians reside in 48 of the City Council Districts. The districts with the largest Indian populations are all in Queens. Districts 23, 28, and 32 all have more than 20,000 Indian New Yorkers.

The districts with the most **Japanese** are concentrated in Manhattan and Queens. Districts 2 and 3 have the most Japanese, with just over 2,000 each. Ten Council Districts have more than 1,000 Japanese New Yorkers.

Koreans are the third largest Asian group in the city. The two largest districts are Districts 19 and 20, each with more than 16,000 Korean residents. At least 1,000 Koreans reside in 22 of the City Council Districts.

Pakistanis are largely split between Brooklyn and Queens. The district with the most Pakistani residents is District 44 in Brooklyn, with 5,279 Pakistani residents, followed closely by District 48, with 4,728. Nineteen Council Districts have more than 1,000 Pakistani New Yorkers.

A few districts have concentrations of more than 1,000 residents for several of the smaller Asian groups in the city. **Nepalese** residents have almost 2,000 residents each in Districts 25 and 26 in Queens. More than 1,000 **Taiwanese** residents live in Districts 19 and 20 in Queens. District 25 in Queens also has more than 1,200 **Thai** residents. District 13 in the Bronx has 1,435 **Vietnamese** residents.

Languages Spoken

Table 3 shows the variety of Asian language groups spoken in the city, as categorized by the Census Bureau. The Census Bureau asks for languages spoken at home and does not include literacy measures for non-English languages. The broad language groups reported here only hint at the wide variety of languages spoken in New York City.

Chinese is the most common Asian language

² Chinese population in this report excludes those who identified as Taiwanese, who are tabulated separately.

spoken in the city. However, the variety of dialects spoken and the usage of traditional and simplified scripts present further challenges when reaching out to the Chinese-speaking population. District 20 in Flushing has the largest Chinese-speaking population, at 67,464 speakers, followed by District 38 around Sunset Park in Brooklyn, with 42,523 Chinese speakers; District 1 covering Manhattan's Chinatown, with 39,984 speakers; and District 43, with 38,058 Chinese speakers. Thirty-eight City Council Districts have more than 1,000 Chinesespeaking residents.

When combined, the **South Asian** languages are the second largest group of Asian languages in the city. The Census Bureau reports several of these languages separately.

- Urdu is the fifth largest Asian language group in the city. District 48 in Brooklyn has the most Urdu speakers, with 4,332, and District 44 is close behind, with 4,200. Nineteen City Council Districts have more than 1,000 Urduspeaking residents.
- Hindi, also mostly spoken by Indians in the city, is the seventh largest Asian language group. District 23 in Queens has the most Hindi speakers, with 3,481; followed by District 29, with 3,381; and District 25, with 2,738. Eight City Council Districts have more than 1,000 Hindi-speaking residents.
- Gujarati, mostly spoken by Indians in the city, is the tenth largest Asian language group. Only two City Council Districts have more than 1,000 Gujarati speakers: District 23 in Queens, with 1,427 speakers, and District 20, with 1,104.
- Other Indic languages, the second most common Asian language category in the city, are represented mainly by Bengali (mostly

spoken by Indians and Bangladeshis), Punjabi (mostly spoken by Indians and Pakistanis), and Nepali. District 25 in Queens has the largest number of speakers of other Indic languages, with 14,109; followed closely by District 24, with 13,974 speakers, and District 26, with 12,290. Twenty-six City Council Districts have more than 1,000 residents who speak one of these other Indic languages.

• Other South Asian languages are part of the other Asian languages category below.

Korean is the third most common Asian language in the city. District 20 in Queens has the largest number of Korean speakers, at 15,464; followed by District 19, with 14,798 speakers, and District 23, with 8,530 speakers. Nineteen City Council Districts have more than 1,000 Korean speakers.

Tagalog is the fourth largest Asian language group in the city. District 25 in Queens has the largest number of Tagalog speakers, at 4,717; followed by District 26, with 4,467 speakers; District 24, with 3,766 speakers; and District 23, with 3,353 speakers. Seventeen City Council Districts have more than 1,000 Tagalog speakers.

Japanese is the eighth largest Asian language group in the city. Japanese-speaking residents are spread across lower Manhattan fairly evenly, with between 1,200 to 1,700 speakers residing in Districts 1 through 6. Additional pockets of Japanese speakers are found in Queens in Districts 22, 26, and 29. Nine City Council Districts have more than 1,000 Japanese speakers.

Vietnamese is the ninth largest Asian language group in the city. District 13 in the Bronx has the most Vietnamese speakers, at 1,289 residents.

Citywide, of the remaining Asian languages reported separately by the Census Bureau, there

are fewer than 10,000 speakers of **Khmer** and **Thai**, and fewer than 500 speakers of **Hmong** and **Laotian**.

Asian languages not mentioned above are grouped into the category of **other Asian languages**. In New York City, public use microdata from the ACS reveals that this category includes primarily **Malayalam, Tamil**, and **Telugu**, which are mostly spoken by Indians and Sri Lankans, and is the sixth largest Asian language group. District 23 in Queens has the largest number of people who speak these languages, at 3,642 residents, followed by District 26, with 3,576; District 48 in Brooklyn, with 2,648; and District 25, with 2,625 speakers. Thirteen Council Districts have more than 1,000 speakers of these other Asian languages.
