COMMITTEE ON BUDGETS

RAPPORTEURS:

KARLO RESSLER - SECTION III (COMMISSION)

DAMIAN BOESELAGER - OTHER SECTIONS

## PARLIAMENT'S POSITION

Amendments submitted to the meeting of the  
Committee on Budgets of  
27-28 September 2021

## Draft amendment 4536

=== BUDG/4536 ===

Tabled by Andrey Novakov, Committee on Budgets

### SECTION III — COMMISSION

#### Title 11 — Border Management

Amend remarks as follows:

#### Remarks:

Add following text:

*Appropriate funding for border control to decrease security threats and ensure effective European border management and control around the EU's external borders with views to the upcoming migrant wave coming from Afghanistan has to be also intended within the amounts allocated under this Chapter.*

#### Justification:

The appropriations under this Chapter are intended to support effective European border management and all its related expenses including the actions carried out by the decentralised agencies in the field. With views to a potential upcoming migrant wave from Afghanistan and the repercussions that might follow, it is essential that the European external borders are secured and the safety of citizens is protected. Therefore, the cuts as proposed by the Council's position are to be restored.

### SECTION III — COMMISSION

#### Article 11 02 01 — Instrument for financial support for border management and visa

Split as follows: 11 02 01 01, 11 02 01 02

Amend remarks as follows:

**Remarks:**

Delete following text:

~~This appropriation is intended to ensure strong and effective European integrated border management at the external borders while safeguarding the free movement of persons within them, in full compliance with the Union’s commitments on fundamental rights, thereby contributing to guaranteeing a high level of security in the Union.~~

~~More specifically, the instrument for financial support for border management and visa (‘the Instrument’) should contribute to supporting effective European integrated border management at the external borders implemented by the European Border and Coast Guard as a shared responsibility of the European Border and Coast Guard Agency and of the national authorities responsible for border management, to facilitate legitimate border crossings, to prevent and detect illegal immigration and cross border crime and to effectively manage migratory flows, as well as to supporting the common visa policy to facilitate legitimate travel and prevent migratory and security risks.~~

~~The Instrument will promote the implementation of European integrated border management defined by its components in accordance with Article 3 of Regulation (EU) 2019/1896 of the European Parliament and of the Council of 13 November 2019 on the European Border and Coast Guard and repealing Regulations (EU) No 1052/2013 and (EU) 2016/1624 (OJ L 295, 14.11.2019, p. 1): border control, search and rescue during border surveillance, risk analysis, cooperation between Member States (supported and coordinated by the European Border and Coast Guard Agency). The Instrument will also promote inter-agency cooperation, cooperation with third countries, technical and operational measures within the Schengen area related to border control and designed to address illegal immigration and to counter cross border crime better and use of state of the art technology, quality control and solidarity mechanisms. Furthermore, the Instrument will contribute to the improvement of the efficiency of visa processing in terms of detecting and assessing security and irregular migration risks, as well as facilitating visa procedures for *bona fide* travellers. The Instrument will support digitalisation of visa processing with the objective of providing fast, secure and client friendly visa procedures for the benefit of both visa applicants and consulates.~~

**Remarks:**

Add following text:

*This appropriation is intended to support Member States in their obligations under international maritime law to render assistance to persons in distress, notably in search and rescue situations.*

**Justification:**

The Commission should present a legislative proposal to set up a Search and Rescue Fund. Given the challenges faced in the Mediterranean, and the humanitarian tragedy unfolding there, the EU must do more to encourage the saving of lives and to show solidarity among Member States in the carrying out of SAR operations. It is more appropriate to create such a Fund than to increase, on an ad-hoc and non-transparent manner, Frontex's budget for SAR. The operations reimbursed through the Fund could also cover a wider range of operations than those carried out by Frontex.

**Justification:**

SAR is a responsibility of the public authorities which should not continue to be left in the hands of NGOs who are forced to carry out these activities given the lack of action of the EU. Given the need to unify criteria and actions between the different Member States in order to avoid the continuation of the systematic deaths at our external borders, a European Civil Search and Rescue Corps must be created.

**Conditions for releasing the reserve:**

Add following text:

*Keeping in mind the current OLAF investigation on the Agency and the conclusions of the LIBE Frontex Scrutiny Working group, and in line with Regulation No 2019/1896 ('the Regulation), the Agency must fulfil the following conditions for the reserve to be lifted:*

- (i) recruit the remaining 20 fundamental rights monitors to be recruited in AD grade in line with Article 110 of the Regulation;*
- (ii) recruit three deputy executive directors in line with Article 107 of the Regulation;*
- (iii) adopt a detailed specific procedure for the implementation of Article 46 of the Regulation.*

**Justification:**

Frontex is a crucial agency that helps the national authorities to protect our borders.

European Parliament report shows delays in hiring 40 rights monitors as the Regulation requires. In this regards, until the full compliance with this obligation, a reserve to the annual budget is justified.

## Remarks:

Delete following text:

~~The European Border and Coast Guard Agency (Frontex) promotes, coordinates and develops European border management in line with the Charter of Fundamental Rights of the European Union and the concept of integrated border management. Frontex's main tasks are to coordinate cooperation between Member States in external border management, assist Member States in training of national border guards, carry out risk analyses and follow research relevant for the control and surveillance of external borders. Furthermore, Frontex helps Member States requiring technical and operational assistance at external borders and provides Member States with the necessary support in organising joint return operations.~~

~~An amount of EUR 45 million is put in reserve in accordance with point (b) of Article 49(1) of the Financial Regulation<sup>1</sup>. During the course of the financial year 2022, the Commission may present one or more transfer proposals in accordance with Article 31 of the Financial Regulation to release the amount or part of it, where justified on the basis of a thorough assessment of needs, while taking into account the Agency's progress in complying with Recommendations 1-5 made by ECA in its Special report 08/2021 "Frontex's support to external border management: not sufficiently effective to date".~~

### Justification:

Frontex is criminalising migration and militarising EU borders. Its lack of transparency and involvement in serious fundamental rights violations such as pushbacks have become institutionalised, as well as grave human rights violations resulting from cooperation with third countries such as Libya and Turkey. Frontex shall be terminated and funds reallocated to tackling root causes of migration, creating safe and legal pathways to the EU and civilian search and rescue in the Mediterranean.

Before paragraph:

The European Border and Coast Guard Agency (Frontex) ..... necessary support in organising joint return operations.

Add following text:

***Keeping in mind the current OLAF investigation on the Agency and the conclusions of the LIBE Frontex Scrutiny Working group, and in line with Regulation No 2019/1896 ('the Regulation'), the reserve will be lifted in instalments if the Agency fulfils the following conditions: (i) an instalment of 30 million lifted after the recruit of the remaining 20 fundamental rights monitors to be recruited in AD grade in line with Article 110 of the Regulation; (ii) an instalment of 30 million lifted after the recruit of three deputy executive directors in line with Article 107 of the Regulation; (iii) an instalment of 30 million lifted after the adoption of a detailed specific procedure for the implementation of Article 46 of the Regulation.***

**Justification:**

Frontex is a crucial agency that helps the national authorities to protect our borders. European Parliament report shows delays in hiring 40 rights monitors as the Regulation requires. In this regards, the reserve will be lifted in instalments if the Agency fulfils the following conditions:

---

~~(EU) No 1316/2013, (EU) No 223/2014, (EU) No 283/2014, and Decision No 541/2014/EU and repealing Regulation (EU, Euratom) No 966/2012 (OJ L 193, 30.7.2018, p. 1).~~

Amend text as follows:

The European Union Agency for the Operational Management of Large-Scale IT Systems in the Area of Freedom, Security and Justice ('eu-LISA') provides a long-term solution for the operational management of large-scale IT systems, which are essential instruments in the implementation of the asylum, border management and migration policies of the Union. It manages large-scale integrated IT systems that maintain internal security in the Schengen countries, enables Schengen countries to exchange visa data, and determines which Member State is responsible for examining a particular asylum application. eu-LISA also plays a key role in the implementation of ETIAS.

Add following text:

*This amendment seeks to add: 27 additional posts (10 TAs; 10 CAs FG IV, 4 CAs FG III; 3 SNEs)*

**Justification:**

This increase reflects the standing need of eu-LISA for additional boost in the area of human resources, so that the Agency is equipped to deal with its assigned tasks. This is the only way for it to gradually reduce its dependency on external contractors. It will assist eu-LISA to implement a number of highly critical EU projects for internal security and border management in a timely and comprehensive manner, i.e. EES, ETIAS, Interoperability, VIS Revised Regulation and potentially EURODAC Recast.

**Justification:**

The restoring of the Draft Budget is requested in order to allow the Internal Security Fund to tackle organised crime and manage the risks in the transport sector. According to an EC study published in 2019, the losses incurred by the EU due to cargo thefts are estimated to be 8.2 EUR billion annually. At the same time cargo crime, including cargo thefts are underreported and underinvestigated. This puts at significant risk the safety of transport workers, as well as the delivery of critical goods.

**Justification:**

To ensure the preparation of Europol's revised legal basis, a temporary increase of its budget for an amount of 3,7 million to support the appointment of 55 additional staff out of the 71 staff foreseen in the 2022 establishment plan. This amount will cover 6 months' salaries for 55 additional staff and will help mitigating

the risks of a late adoption of the revised mandate beyond 2021, that would negatively affect the operational performance. Once the Europol revised Regulation is formally adopted, the amount of 3,7 million will be deducted from the overall amount placed in reserve.

### Justification:

The European Monitoring Centre for Drugs and Drug Addiction (EMCDDA) provides the EU and its Member States with a factual overview of European drug problems and a solid evidence base to support the drugs debate. It offers policymakers the data they need for drawing up informed drug laws and strategies, while helping professionals and practitioners working in the field pinpoint best practice and new areas of research. Given its role, the amendment proposes the increase of its funding.

## Remarks:

### Delete following text:

~~This appropriation is intended to cover the research activities of the EDF for collaborative research projects, research activities in disruptive defence technologies and support actions aiming at creating or improving knowledge in the defence sector.~~

~~The EDF shall provide support for actions covering both new and upgrade of existing products and technologies where the use of pre-existing information needed to perform the upgrade is not subject, directly or indirectly to a restriction by non-associated third countries or non-associated third country entities. Eligible actions shall relate to one or more of the following activities:~~

- ~~– activities aiming to create, underpin and improve knowledge, products and technologies, including disruptive technologies, which can achieve significant effects in the area of defence,~~
- ~~– activities aiming to increase interoperability and resilience, including secured production and exchange of data, to master critical defence technologies, to strengthen the security of supply or to enable the effective exploitation of results for defence products and technologies,~~
- ~~– studies, such as feasibility studies to explore the feasibility of new or improved technologies, products, processes, services and solutions,~~
- ~~– the design of a defence product, tangible or intangible component or technology as well as the definition of the technical specifications on which such design has been developed which may include partial tests for risk reduction in an industrial or representative environment,~~
- ~~– the development of a model of a defence product, tangible or intangible component or technology, which can demonstrate the element's performance in an operational environment (system prototype),~~
- ~~– the testing of a defence product, tangible or intangible component or technology,~~
- ~~– the qualification of a defence product, tangible or intangible component or technology,~~
- ~~– the certification of a defence product, tangible or intangible component or technology,~~
- ~~– the development of technologies or assets increasing efficiency across the life cycle of defence products and technologies.~~

~~This appropriation may also cover expenditure linked to the work of independent experts to assist the Commission for the evaluation of proposals and to advise on or assist with the monitoring of the implementation of the funded actions. Furthermore, this appropriation may also be used to fund the organisation of dissemination activities, match-making events and awareness raising activities, in particular aiming at opening up supply chains to foster the cross-border participation of SMEs.~~

~~Assigned revenue (origin, estimated amounts and corresponding article or item of the statement of revenue).~~

**Justification:**

The European Defence Fund finances research, development and procurement of Defence capabilities, PESCO projects- EU armament projects. The Defence Fund and the entire 'Defence' budget line violate Art 41.2 TEU that prohibits any funding from EU budget of measures and operations having military or defence implications. The budget lines therefore have to be deleted.

**Justification:**

Among the different programmes of the MFF, military mobility has been one of those that suffered the most cuts. So much in facts that the ability to deliver on its premises has been put into question because of the greatly reduced budget. Still military mobility is strategic for EU security and defence, its preparedness and resilience, as well as for EU CSDP missions and operations. It will also have beneficial spillover effects on civilian domains, such as civil protection. For this reason I believe it's important to devote more funds to it.

**Remarks:**

After paragraph:

This appropriation is intended to provide support ..... areas, related institution building and investment.

Add following text:

*In line with the High level geopolitical dialogue (HLGD) following ambitions should be reflected in the financial envelope assigned to the region:*

- *Support for the regional economic outlook in northern Africa in light of the migration from Sub-Saharan Africa;*
- *Support for women activists across the Southern Neighbourhood in regional programming;*
- *Active cultural diplomacy, bilateral or multilateral, coupled with promotion of EU values.*

After paragraph:

Part of the appropriation can also be used to implement the performance-based approach set out in the NDICI — Global Europe.

Add following text:

*The EU should provide predictable funding to UNRWA in 2022 to preserve uninterrupted basic services to millions of Palestinian refugees. The total EU contribution to UNRWA should be at least 142 million Euro in 2022.*

## Justification:

Increase of appropriations covered partly by transfer from the Emerging challenges and priorities cushion to better reflect priorities of the high-level geopolitical dialogue related to the Southern Neighbourhood.

With respect to the proposed increase, 60 million shall be dedicated to UNRWA, for a total EU contribution of 142 million to the Agency for 2022. UNRWA is a unique provider of vital services for millions of Palestine refugees, therefore contributing to regional stability and human development in the Middle East, managing migration flows and counter radicalisation.

#### Conditions for releasing the reserve:

##### Add following text:

*UNRWA: The reserve of EUR 20 mio will be released by the next academic school year if substantive positive changes are made in the Palestinian Authority curriculum that promote coexistence and tolerance with the Jewish-Israeli "other" and peace education with Israel in alignment with the goals of the two State solution.*

*Should there be no change, appropriations in reserve shall be used for funding Palestinian NGOs that have a proven track record of promoting educational initiatives in school settings for children designed to foster tolerance, coexistence and respect towards the Jewish-Israeli "other".*

## Justification:

As has already pointed by EP decisions of 28 April 2021 and of 13 May 2020 on the Commission budget discharges of 2019 (par.444) and 2018 (par.302), hate speech, antisemitism and incitement to violence in Palestinian Authority and UNRWA textbooks have still not been removed. The EP decisions insisted that EU funded salaries of education civil servants who draft Palestinian textbooks must be made conditional on material reflecting values of peace, tolerance, coexistence; as stressed in June by Commissioner Varhelyi and the EP decision of 18 April 2018 on the 2016 discharge (par. 272).

**Conditions for releasing the reserve:**

Add following text:

*The reserve shall have the amount of 5 % of UNWRA budgetary resources. The reserve will be released when the Palestinian Authority have committed to reform school textbooks by the school year through removing all educational material which does not meet UNESCO standards such as antisemitism, incitement to violence, hate speech, and glorification of terrorism as identified in the 2021 EU's report of the Georg Eckert Institut (GEI) on Palestinian textbooks; insists that the Palestinian Authority demonstrates sufficient will and ability to introduce new educational material in school textbooks supporting peace, the Two State Solution, tolerance, and coexistence with Israel.*

*Should there be no change, appropriations in reserve shall remain for an additional academic school year until clear evidence is provided that robust change has been made across all grades and subjects to support the fostering of coexistence, respect, tolerance, towards the Jewish-Israeli "other".*

**Justification:**

The EP in the 2019 discharge (par.444) and 2018 discharge (par.302) stressed that antisemitic content and incitement to violence in Palestinian and UNWRA educational materials have not been removed. The EU's GEI's 2021 report confirmed these findings as well as removal of peace education previously included in curriculum. The discharges insisted that EU funded salaries of education civil servants who draft Palestinian textbooks must be made conditional on material reflecting values of peace, tolerance and coexistence.

~~This appropriation is intended to provide support to the southern neighbourhood partner countries (Algeria, Egypt, Israel, Jordan, Lebanon, Libya, Morocco, occupied Palestinian territories, Syria, Tunisia) and cover actions in the areas of cooperation specified in the NDICI — Global Europe, including multi-country, regional, and trans-regional projects on a pro-rata basis. In addition, the following areas of cooperation specific for the Neighbourhood will be covered: promotion of enhanced political cooperation; support to the implementation of association agreements or other existing and future agreements and jointly agreed association agendas and partnership priorities or equivalent documents; promotion of a strengthened partnership between societies in the Union and the partner countries, including through people-to-people contacts; increased regional cooperation, in particular in the framework of the Union for the Mediterranean and European Neighbourhood-wide collaboration; progressive integration into the Union internal market and enhanced sectoral and cross-sectoral cooperation, including through legislative approximation and regulatory convergence towards Union and other relevant international standards, and improved market access including through deep and comprehensive free trade areas, related institution building and investment.~~

~~Part of the appropriation can also be used to implement the performance-based approach set out in the NDICI — Global Europe.~~

**Justification:**

In times of crisis, support for third countries should be suspended. We support the development of Africa, but first African countries must sign systematic agreements for the return of migrants.

Add following text:

*In line with the High level geopolitical dialogue (HLGD), the European parliament asks to reflect the*

*following ambitions with the financial envelope assigned to the region:*

*-Support for the regional economic outlook in northern Africa in light of the migration from Sub-Saharan Africa;*

*-Support for women activists across the Southern Neighbourhood in regional programming;*

*-Active cultural diplomacy, bilateral or multilateral, coupled with promotion of EU values.*

*The EU should provide predictable funding to UNRWA in 2022 to preserve uninterrupted basic services to millions of Palestinian refugees. The total EU contribution to UNRWA should be at least 142 million Euro in 2022.*

### **Justification:**

Increase of appropriations covered partly by transfer from the Emerging challenges and priorities cushion to better reflect priorities of the high level geopolitical dialogue related to the Southern Neighbourhood. With respect to the proposed increase, 60 million shall be dedicated to UNRWA, for a total EU contribution of 142 million to the Agency for 2022. UNRWA is a unique provider of vital services for millions of Palestine refugees, therefore contributing to regional stability and human development in the Middle East, managing migration flows and counter radicalisation.

Add following text:

*In line with the High level geopolitical dialogue (HLGD) following ambitions should be reflected in the financial envelope assigned to the region:*

- *Good governance reforms, state building, rule of law, peace and security should be at least as important as economic cooperation and investment;*
- *Address preventively state and societal resilience, including economic recovery and integration in light of Russian destabilisation in the Eastern Neighbourhood;*
- *Apply the principle of differentiation, including a clearer path to EU future membership, including support to potential closer participation in EU affairs;*
- *Investment must be based on strong rule of law as well as reflect varied level of interest in the EU integration. Need to motivate partners, employ rule of law conditionality in assistance;*
- *Focus on gender mainstreaming policies in the region.*

*This appropriation is also intended to provide support to Belarusian civil society in Belarus and abroad, including the opposition leader Sviatlana Tsikhanouskaya and the efforts to free Roman Protasevich and advance their common cause to strive for a democratic Belarus. Priority is for following activities: legal aid, humanitarian assistance, healthcare services, professional conversion training and job creation for laid off activists, and support for children and students' education, as well as activities of pro-democracy Belarusian actors, independent media and human rights defenders.*

#### Justification:

**Justification:**

The ongoing repression of the democratic forces in Belarus had led to the arrest and prosecution of several hundred activists. Furthermore, hundreds of Belarusians were forced to flee the country. The programme EU4Belarus: solidarity with the people of Belarus wants to contribute towards reinforcing resilience to achieve civic empowerment in the country, in particular civil society organisations and independent media to support those suffering from repression by the regime. Given the increasing number of persons concerned, a reinforcement of 5 million Euro is required.

In addition, the following areas of cooperation specific for the Neighbourhood will be covered: promotion of enhanced political cooperation; support to the implementation of association agreements or other existing and future agreements and jointly agreed association agendas and partnership priorities or equivalent documents; promotion of a strengthened partnership between societies in the Union and the partner countries, including through people-to-people contacts; increased regional cooperation, in particular in the framework of the Eastern Partnership and European Neighbourhood-wide collaboration; progressive integration into the Union internal market and enhanced sectoral and cross-sectoral cooperation, including through legislative approximation and regulatory convergence towards Union and other relevant international standards, and improved market access including through deep and comprehensive free trade areas, related institution building and investment. *The financial envelope assigned to the region shall also contribute to gender mainstreaming policies.*

**Justification:**

The stability of the immediate neighbourhood is a strategic interest of the EU. A stronger financial engagement in the Eastern Neighbourhood is essential for contributing to political reforms and economic development in the region.

**Heading:**

*PanAfrican Program*

**Remarks:**

Add following text:

*The PanAfrican Program is the only EU program designed to "treat Africa as One".*

*The PanAfrican Program focuses on social protection as a means to achieve several Sustainable Development Goals. This includes achieving universal health coverage (UHC) and implementing nationally appropriate social protection systems as well as supporting social assistance schemes such as predictable and reliable transfers of cash, food or other goods.*

*The PanAfrican Program should finance, in the first instance, technical assistance to build social protection systems that reach and benefit all and avoid the planning and implementation of different programs in isolation, which results in fragmentation, inefficiencies and loss of scarce resources.*

**Justification:**

The NDICI - Global Europe regulation provides for the "establishment of geographic programmes of a continental or trans-regional scope, in particular a pan-African programme covering African countries". Through its continental scope, the PanAf Program would complement EU support at regional and country level.

This Program should focus on social protection systems as a means to achieve several SDGs and thus help people, households and communities to reduce and prevent poverty, and contribute to long-term social and economic development.

**Conditions for releasing the reserve:**

Add following text:

*The commitment and payment appropriations for actions in Afghanistan are put in reserve and should not be released as long as the new de facto ruling regime exercising its power since 15 August 2021 does not fulfil specific conditions linked to human rights and the fight against terrorism. Those conditions are the following:*

— *advancing the fundamental values of democracy, the rule of law, the universality and*

*indivisibility of human rights, respect for human dignity, the principles of non-discrimination, equality and solidarity, and respect for the principles of the United Nations Charter and international law,*

*— allowing for cooperation and partnership with civil society on human rights and democracy issues and protecting and empowering human rights defenders,*

*— upholding human rights and fundamental freedoms for all by monitoring, promoting and strengthening respect for and observance of all human rights, especially those of minorities and of women and girls,*

*— developing, enhancing supporting, consolidating and protecting democracy, comprehensively addressing all aspects of democratic governance (including reinforcing political pluralism, representation, and accountability, enhancing citizen and civil society participation, and supporting credible, inclusive and transparent elections, independent and pluralistic media, internet freedom, the fight against censorship, accountable and inclusive institutions, including parliaments and political parties, and the fight against corruption),*

*— promoting effective multilateralism and strategic partnership, contributing to reinforcing capacities of international, regional and national instruments and mechanisms in promoting and protecting human rights, especially those of minorities and of women and girls, democracy and the rule of law,*

*— fighting against local and global terrorism effectively.*

**Justification:**

Since the new Taliban de facto ruling regime has grabbed power in Afghanistan, human rights, rights of minorities and of women and girls are seriously threatened. The new regime has also been an historical supporter of local and global terrorism. Until the new Taliban de facto ruling regime does not respect the conditions laid down in the remarks and has not taken clear, concrete and irreversible commitments to protect and promote the above-mentioned rights and the fight against terrorism, no EU funds should be managed by their authorities. Amounts to be adjusted with EC programming.

**Justification:**

Increase of appropriations reflects the ambitions specified by the European parliament during the HLGD in order to reflect its geopolitical importance, help social cohesion by implementing social security systems and to address the hard fallout of COVID-19 pandemic.

Countries in Central and South America continue to be epicentres of COVID-19 pandemic, with very high mortality rates and insufficient access to vaccines. Several countries of the region are also coping with the hosting of Venezuelan refugees.

## Heading:

### ACP Programme

## Remarks:

Add following text:

*This programme will be designed to cover the common and intersecting objectives and strategic priorities under the new EU-OACPs agreement, which will enter into force in 2022.*

## Justification:

Article 4 of the Global Europe-NDICI Regulation provides for the creation of geographic programmes of continental or trans-regional scope, including a programme covering African, Caribbean and Pacific countries. This programme would complement EU programming at regional and country level in these parts of the world. It should be dedicated primarily towards vulnerable populations, facing climate change and biodiversity loss, and support the financing of COVID-19 related policies to facilitate access to quality medical care and vaccines for all.

## Remarks:

### After paragraph:

This item is intended to receive capital repayments ..... European Development Funds, in particular Article 2.

### Add following text:

*Given the shortcomings assessed for EFSD, it is essential to ensure that actions supported by its successor, EFSD+- EAG priorily fulfil development objectives and guarantee development additionality.*

*Alongside, when operating outside of Europe the EIB is acting under various development mandates based on the EU treaties and should make its utmost to ensure that all its operations are compliant with the external action goals of the EU as defined in Article 21 TEU, including respect and promotion of human rights, eradication of poverty, and the management of environmental risks.*

## Justification:

EDF reflows will be ring-fenced to ACP countries and channelled exclusively through the EIB via budgetary guarantees and blending operations under EFSD+. Appropriations should be counted within the indicative amount for the EIB windows set by the Regulation at EUR 26 725 million, out of a maximum ceiling of operations under the EAG of EUR 53 449 million.

Appropriations should help remedy the current lack of presence of the EIB on the ground to analyse the reality of the situation around the project it finances. Stronger involvement of EU delegations could also play a positive role.

**Justification:**

Due to the instability, crisis and armed conflicts in the Union's neighbourhood and beyond, it is important to significantly increase funds for actions under this thematic programme. The Commission proposes an increase of 15% compared to the 2021 level of spending in the context of the Instrument for Stability and Peace (IcSP) and its Articles 4 and 5 measures, which are identical with this thematic programme. While this is welcomed, it remains insufficient and an increase of 50% of the Commission's proposed budget is more appropriate given the numerous challenges.

Add following text:

*Climate action is focused on responding to the most urgent adaptation needs and support for mitigation action of particular importance for facilitating adoption of ambitious Nationally Determined Contributions and the reaching of global agreement on adequate climate action overall.*

*This appropriation is also used for actions for the protection of biodiversity in support of the 2030 Agenda, in particular through the SDGs 14 ‘Life below water’ and 15 ‘Life on land’. This expenditure contributes to the reaching of the Union’s targets for biodiversity expenditure laid down in the Multiannual Financial Framework, in accordance with recital 49 of the NDICI-Global Europe regulation.*

*Actions financed through this appropriation include actions to support re-direction of investments harmful to biodiversity and climate goals, towards climate and biodiversity friendly funding, support for combatting of illegal logging and wildlife trafficking and support for indigenous peoples’ and local communities’ sustainable use and protection of forests and biodiversity..*

**Justification:**

Limiting the adaptation deficit in developing countries is acutely necessary for counteracting the relentless increase in the number of victims of impacts of climate change and the human suffering, migration and security repercussions of this. Helping to give developing countries the means to pursue green development paths is also one of the keys to ambitious international climate action and biodiversity protection. Renewable energy expansion is of great importance and private sector cooperation can accelerate this.

This appropriation is intended to cover actions of the Global Challenges thematic programmes, corresponding to the areas of interventions specified in the NDICI — Global Europe, including the following: healthy environment and climate change, sustainable energy. *The appropriations are also intended to swiftly and coherently address the targeted promotion of renewable energy expansion/partnerships as well as to support developing countries capacity to export renewable energy including in the form of renewable hydrogen.*

**Justification:**

The appropriations are intended to address the targeted promotion of renewable energy expansion/partnerships in and with countries that are especially suitable to export renewable energy including in the form of renewable hydrogen as there will be a significant increase in demand for renewable hydrogen at competitive prices in the EU and worldwide.

**Remarks:**

After paragraph:

This appropriation is intended to cover actions of ..... environment and climate change, sustainable energy.

Add following text:

*Prioritise investments for the protection of biodiversity in line with dedicated SDGs and the 2030 Agenda, as well as the ambition set in Global Europe-NDICI to align with the MFF biodiversity objectives.*

*Alongside OECD recommendations, re-direct investments harmful to biodiversity - which globally represents five to six times more than all government spending on biodiversity - towards biodiversity friendly funding.*

**Justification:**

Strengthening appropriations by 50000000 from the Emerging Challenges and Priorities Cushion to finance actions involving Indigenous People and Local Communities, in order to halt biodiversity loss, fight against illegal logging and wildlife trade and trafficking and ensure sustainable use and management of ecosystems.

New investment tools to support resource mobilisation can be used to this end (e.g biodiversity-relevant taxes, fees and charges), and investments to better track and reform harmful subsidies and channel them towards biodiversity friendly activities instead

**Justification:**

Due to the instability, crisis and armed conflicts in the Union's neighbourhood and beyond, it is important to significantly increase funds for crisis response measures on peace, peacebuilding and mediation. The

Commission did not propose an increase compared to the 2021 level of spending in the context of the Instrument for Stability and Peace (IcSP) and its Article 3 measures. This level of spending remains insufficient and an increase of 50% of the Commission's proposed budget is more appropriate given the numerous challenges.

**Remarks:**After list ending with:

- to promote new Union led or international initiatives or priorities.

Add following text:

*The frontloading of the cushion provides COVAX with timely and needed resources to increase vaccine coverage to 30% for low- and middle-income countries. Thereby, this appropriation should narrow the gap between rich and poor nations in the recovery from the COVID-19 pandemic, hence reducing the risk that new (and more resistant) variants emerge.*

**Justification:**

During a global pandemic, no one is safe until everyone is safe. Yet, access to vaccines has been largely unequal, with most low-income countries only having vaccinated less than 5% of their populations. To tackle this, the IMF estimates that a 4bn cash transfer to COVAX could significantly ramp up global vaccination efforts. In this way, we propose to increase the Emerging Challenges and Priorities Cushion so that it can fully fund this transfer, while leaving more than 500mm available for other crises that may emerge.

##### Remarks:

###### Before paragraph:

In accordance with the NDICI — Global Europe, the ..... where most needed and duly justified, inter alia:

###### Add following text:

*The frontloading of the cushion provides COVAX with timely and needed resources to increase vaccine coverage to 30% for low and middle income countries. Thereby, this appropriation should narrow the gap between rich and poor nations in the recovery from the COVID-19 pandemic, hence reducing the risk that new (and more resistant) variants emerge.*

##### Justification:

During a global pandemic, no one is safe until everyone is safe. Yet, access to vaccines has been largely unequal, with most low-income countries only having vaccinated less than 5% of their populations. To tackle this, the IMF estimates that a 4bn cash transfer to COVAX could significantly ramp up global vaccination efforts. In this way, we propose to increase the Emerging Challenges and Priorities Cushion so that it can fully fund this transfer, while leaving more than 500mm available for other crises that may emerge.

**Justification:**

Since the beginning of 2021, almost 150,000 people have left their homes in Afghanistan, increasing the number of displaced people to at least 4.2 million. The political situation in Afghanistan created by the withdrawal of troops has exacerbated the humanitarian crisis, so the European Union must supplement financial support for all actors involved to help the population. The proposed increase for the 2022 budget is based on the latest events that have aggravated the situation of civilians and which rises to the level of the proposed increase for 2021.

Amend text as follows:

This appropriation may also cover any other costs directly linked to the implementation of humanitarian aid operations, such as technical assistance within the requisite timescale and in a way which meets the needs of the recipients, satisfies the requirement to achieve the greatest possible degree of cost-effectiveness and provides greater transparency.

Add following text:

*The commitment and payment appropriations for actions in Afghanistan cannot be managed by Afghan authorities under control of the Taliban regime.*

**Justification:**

This increase in CA and PA is intended to further help the population in need in Afghanistan following the

recent political crisis and the takeover by the Taliban. The amount ensures a continuity with the exceptional increase (+ EUR 143 million) announced for the year 2021. It should also be ensured that no EU funds are managed by the authorities under control of the Taliban regime that took over the country on 15 August 2021 due to their lack of respect of fundamental rights and rights of minorities and of women and girls.

**Justification:**

According to UN OCHA in 2021 235 million people will need humanitarian assistance and protection. This number has risen to 1 in 33 people worldwide - a significant increase from 1 in 45 at the launch of the Global Humanitarian Overview 2020 which was already the highest figure in decades. COVID will keep generating huge needs beyond health challenges. New emerging new man-made and natural crises (Haiti, Afghanistan) together with protracted crises provoke an explosion of humanitarian needs that need to be addressed by more EU humanitarian assistance.

##### Remarks:

###### Delete following text:

~~This appropriation finances communication, information and outreach measures, systems and networks designed to project a strong, united voice for Europe in the world. The actions under this appropriation will strengthen the Union's capacity to promote its values and interests globally, enhance awareness of the Union's global role and, in that context, draw attention to the scale, ambition and impact of its common foreign and security policy, external relations, international cooperation and partnerships, neighbourhood, enlargement, conflict prevention and humanitarian policies and programmes. They will be based on a coordinated approach, linking the internal and external aspects of Union policies.~~

~~The communication, information and outreach measures concerned may address the general public or specific target audiences or stakeholder groups in the Member States or in third countries. They may be implemented directly by the Union centrally or at decentralized level in its delegations and offices in third countries, or in collaboration with public and private sector partners, service providers, international organizations and other stakeholders.~~

~~The communication, information and outreach measures financed by this appropriation include the design and implementation of:~~

- ~~public diplomacy actions;~~
- ~~strategic communication, including measures to counter global disinformation through the systematic~~

~~tracking and exposing of disinformation spread by state and other actors,~~

- ~~– (integrated) campaigns, events and other communication, information and outreach actions,~~
- ~~– the EU Visitors programme managed jointly by the Commission and the European Parliament and other visitors' and networks and exchange programmes for media professionals and other stakeholders,~~
- ~~– information actions on Union citizens' rights following the United Kingdom's withdrawal from the Union.~~

~~Activities carried out in realising these measures include the (co-)production, procurement, distribution, organization and/or management of:~~

- ~~– briefings and information packs, study visits, press trips, for media professionals and other stakeholders,~~
- ~~– printed, audio-visual and electronic content,~~
- ~~– traditional, online and social media publications,~~
- ~~– media monitoring,~~
- ~~– events, seminars, workshops, conferences and training courses,~~
- ~~– communication and information systems and networks,~~
- ~~– competitions and prizes for traditional and online journalism and reporting,~~
- ~~– opinion polling.~~

~~This appropriation may also cover IT related expenditure including corporate information technology.~~

Besides the expenditure described in this chapter, this appropriation is also and more specifically intended to cover:

- expenditure on external personnel at headquarters (contract staff, seconded national experts or agency staff). This covers remuneration of the staff concerned and the additional cost of training, meetings, missions, information technology and telecommunications and other costs relating to the external personnel financed from this item;
- expenditure on external personnel in Union delegations (contract staff, local staff or seconded national experts) for the purposes of devolved programme management in Union delegations in third countries including tasks previously conferred on phased-out technical assistance offices, as well as in Commission Post-Accession Transitions Teams remaining in new Member States during the phasing-out period (contract staff, agency staff) working on tasks directly related to completion of accession programmes. This covers remuneration of the staff concerned and the additional cost of training, meetings, missions, information technology, telecommunications and other costs directly relating to the presence in delegations of external personnel financed under this item, including logistical and infrastructure costs e.g. the renting of accommodation.

Assigned revenue (origin, estimated amounts and corresponding article or item of the statement of revenue).

**Heading:**

*Erasmus+ - IPA III contribution*

**Remarks:**

Add following text:

*This appropriation is intended to cover financial assistance provided under IPA III in order to promote the international dimension of the Erasmus+ programme.*

**Justification:**

New nomenclature increasing transparency, predictability and proper Parliament influence over choices. It is important to reinforce funding for key programmes related to the EU fundamentals with the aim of supporting the freedom of press, the fight against corruption and organised crime, as well as the rule of law, fundamental freedoms and people-to-people contacts in pre-accession countries of Western Balkans. Due to the lack of progress on democracy, the rule of law and the protection of human rights, the allocations for Turkey should remain at 2021 levels.

~~This appropriation is intended to cover actions to support IPA III beneficiaries in order to fulfil the following specific objectives:~~

~~(a) to strengthen the rule of law, democracy, the respect of human rights, fundamental rights and international law, civil society and security, as well as improve migration management including border management;~~

~~(b) to reinforce the effectiveness of public administration and support structural reforms and good governance at all levels;~~

~~(c) to shape the rules, standards, policies and practices of the beneficiaries listed in Annex I in alignment to those of the Union and to reinforce reconciliation and good neighbourly relations, as well as people-to-people contacts and communication.~~

~~In addition, this appropriation is intended to cover expenditure related to multi-annual TAIEX (Technical Assistance and Information Exchange), monitoring, communication and audit actions covering the pre-accession beneficiaries.~~

**Justification:**

In times of crisis, support for third countries should be suspended.
